Date of Birth: 16 April 1996

PERSONAL STATEMENT

I find joy in creating visuals that are able to engage with people effectively while fulfilling the aesthetics of each graphic element. Based on my past experiences being a graphic designer, I learnt a lot about how each graphics and type could influence the viewers. It is that everywhere I go I would think to myself on how people could improve their marketing materials. I do work well both as a member of a team and in isolation with high attention to detail.
